

COIL

Collaborative Online International Learning

Starting in 2017, the University of South Carolina Beaufort and the Université de Paris Nanterre Institut Universitaire de Technologie (IUT) began collaborating together by having our Sandsharks travel overseas to Paris and hold joint classes and various cultural activities around the City of Light. The in-person activities unfortunately were put to a halt in 2020 when the COVID-19 pandemic limited face-to-face interactions, but it did not stop the connection between the two universities. Using virtual formats such as Microsoft Teams and the COIL Model from SUNY, the two universities were able to continue their educational activities and opportunities. Despite the limitations that were set in place, USCB and UdeParis IUT found a new way to remain in contact and allow both students and faculty to engage throughout the semester.
