Blackboard Day – The Summer of Solutions (Hands on – In person only)

Ready, set, convert! USCB eLearning invites you to the ultimate Ultra Course Conversion Bootcamp this summer. During these days, Anthology personnel will be on site to assist with conversion and answer questions. Transform your courses into Ultra masterpieces and we're here to guide you through the transformation. Head to the Bluffton campus this summer for hands-on conversion best practices. Convert, update, and fix errors in the company of like-minded faculty. Seats are limited – secure your spot for the Ultra experience! The event will run from 10-3pm. Look for dates in an upcoming email.

SELF-PACED COURSES

Hybrid Teaching and Learning

This self-paced online course is designed for faculty who are considering building and teaching hybrid courses - or - just want more information about it. There are five modules in this course: Overview of Hybrid Teaching and Learning, Pedagogy and Instructional Design, Technology Tools for Hybrid Learning, Student Engagement and Support, and Evaluation and Assessment in Hybrid Learning. Each module will take approximately **1 – 2 hours** to complete and consists of videos, links, articles and research. The highlight of the course is the Technology Tools module which contains links to free virtual labs, OERs, case studies, etc.

How to: Panopto

Panopto is a single platform for instructors to create and manage their video content. This course contains all of the resources you need to get started with Panopto. Panopto features include:

- Students can view lectures and materials purely on their own time.
- You have the ability to add quiz questions to any video at any point during the presentation.
- Panopto's free online screen recorder lets you record video presentations and video messages without downloading any software or installing any apps or plugins. You can also capture video from virtually any recording device you can plug into your laptop or computer.
- Panopto's technology automatically transcribes every video you upload, generating captions that can be edited manually or used as-is.
- You can get detailed reports on audience engagement and comprehensive insights into viewing behavior.
