About The Fall 2021 Term

Welcome to the Fall term! In our mission to serve members in their lifelong learning interests, we find ourselves in new, exciting territory. The pandemic experience has changed the world, and very much what we do at USCB OLLI. As members, you have access to quality instructors, sharing fascinating topics, that are both near to the Lowcountry, as well as from far corners of the country, even world. You can attend a course in-person, or if you prefer to attend virtually on Zoom, you can choose that option. Most of the OLLI presentations are recorded, which provides the opportunity for members who purchase the Fall 2021 Unlimited term to view the OLLI On-Demand library, anytime during the term, as many times as you like. This is called a hybrid curriculum. Enjoy this Fall's robust curriculum in the numerous ways that works best for your learning!

WAYS TO ENGAGE

In-Person: OLLI has designated classrooms on all USCB campuses. Most Fall term courses are held in person.

Look for the In-Person designation listed next to each course on the course pages or on the In-Person summary page.

Live On Zoom: Many Fall term courses that are in person on campus are also offered simultaneously on Zoom.

OLLI offers tech support for members who want to get the most out of their Zoom experience.

On-Demand: The majority of Fall term OLLI courses are recorded and added to the On-Demand library.

This allows members who chose the "Unlimited Term Fee" the option to view the entire Fall term selection of classes, on their own time, as many times as they chose, through December 31, 2021.

Each course listing states if the course is In-Person, on Zoom and/or On-Demand.

FLEXIBLE COURSE FEES

A ~ PAYGO (Pay As You Go) - \$15 per course

PAYGO is back! Pay for each class separately upon registration throughout the term.

- \$15 per course whether it is on Zoom or In-Person
- Does NOT include On-Demand access
- One-on-one technical support from OLLI
- Upgrade to Unlimited at any time (course fees paid will be applied to Unlimited cost)

B ~ UNLIMITED - \$125

Take as many courses as you wish throughout the term. **Pre-paying the Unlimited term fee is required before registering for OLLI courses.**

- Take as many courses In-Person and/or on Zoom
- INCLUDES On-Demand access throughout December 31, 2021
- One-on-one technical support for OLLI

YOUR ROAD MAP to Enjoying the Fall OLLI Program

This map is meant to provide quick tips and guidance so that you get the most out of your USCB OLLI membership.

STARTING POINT: Make sure your Membership is current. Enjoy benefits year-round, even if you do not take courses in the Fall or Spring terms. Cost: \$40 for 365 days upon joining or renewing.

THE ROAD AHEAD ~ DECISION TIME

TERM PARTICIPATION: If you'd like to engage in courses during the Fall term, your next decision is to choose between the following.

- **PAYGO** - pay as you go. Each course, regardless of the number of sessions, in-person or on Zoom, costs \$15.00, paid upon registration. This option does not include On-Demand.
- **UNLIMITED** - take as many courses as you like, including in-person on campus, Zoom and/or On-Demand for \$125. Pre-paying the Unlimited term fee is required before registering for OLLI courses.

CHOOSING YOUR LEARNING PLATFORM - HYBRID COURSE SELECTION

A. In-Person - courses held in a classroom or at an off-site location, sign in upon arrival.

B. On Zoom - For optimal Zoom experience, create a Zoom account. Learn how to put your first and last name or last initial on your screen so OLLI staff can check attendance. When taking an OLLI course through Zoom, it is different than physically sitting in the classroom. Example: you may not always see the instructor if they walk outside of the camera's view.

C. On-Demand OLLI Library - Watch OLLI courses throughout the term that have been recorded. This benefit is available to members who signed up for UNLIMITED.

* NEED GUIDANCE ON YOUR OLLI JOURNEY?

Contact the OLLI office at 843-208-8247 or e-mail olli@uscb.edu.

OLLI staff is here to assist you!

📍 HOW TO REGISTER FOR THE FALL TERM – MANY CHOICES

A. Online at www.uscb.edu/olli

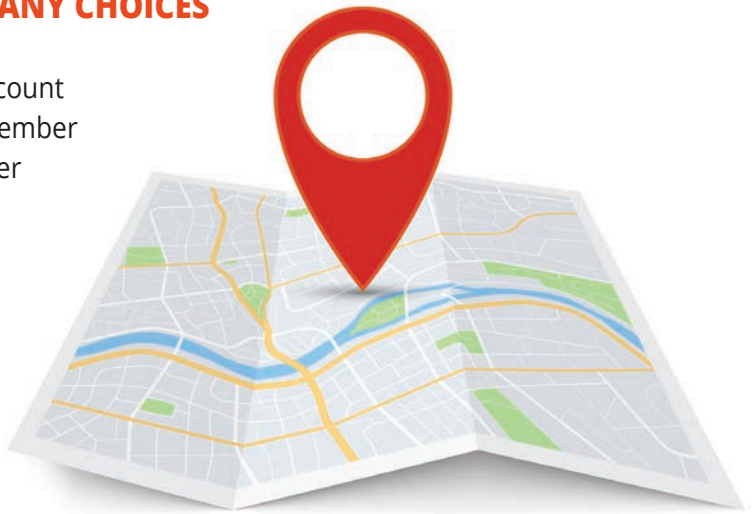

If you are brand new to OLLI, you will need to create an account by clicking new member. If you are or have ever been a member of USCB OLLI you have an online OLLI account, please enter your email address associated with OLLI and password.

- **UNLIMITED** – Pre-pay your unlimited term fee of \$125 before adding any courses. Once payment is complete, log back into your account and sign up for courses anytime throughout the term. Courses that have vendor fees (for supplies) will be an additional cost.

- **PAYGO** – Add your courses to your cart (\$15 for each course that you choose). Courses that have vendor fees (for supplies) will be an additional cost.

B. Mail – Send your completed Fall term registration form with payment to USCB OLLI, One University Blvd. Hargray 161, Bluffton SC 29909

C. Phone – Call the OLLI office at 843-208-8247. Have your course selection and payment ready.

📍 GOING TO CLASS ESSENTIALS - SMOOTH PAVEMENT AHEAD!

- You will receive a course reminder e-mail 24 hours before each of your courses. These e-mails will also have important details such as handouts, location details, and the zoom link. Please READ them.

- Always sign in for your class at the registration desk outside the classroom. If on Zoom, make sure your full name or your first name and the first initial of your last name is showing on your screen so that staff can take attendance.

📍 **FINISH LINE:** Fill out a course evaluation for each of your courses. As an OLLI member, your feedback is key for both curriculum planning and the instructors who volunteer to share their expertise and passion. The OLLI course evaluation link is the same throughout the term and is provided in each class reminder email and placed in the zoom chat room for each Zoom class.

* OLLI Staff Suggestion

You can bookmark the evaluation link on your computer or use your mobile device to scan the QR code for quick access to the evaluation form.

OLLI EVALUATION FORM: Open your devices camera and hold it over the QR code. The OLLI evaluation will pop up in a text box above your screen, click the box and it will open the evaluation form OR it will open automatically depending on the device.

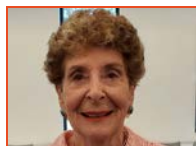

ARTS & CULTURE

ART120: HAND BUILT SCULPTURE

Tuesday, October 5 | 1-3PM | **In-Person only** | Hilton Head Island campus

This class will be a discussion and demonstration of hand-built clay constructed vessels and sculpture. Sheri will divulge short cuts and tricks she uses in her work to get the shapes, decorations, and texture she is creating. She will talk about the various techniques of glazing, changing the color of the clay and highlighting the pieces. She will also demonstrate the different ways of applying the color/painting, pouring, and spraying. Sheri will show several of her pieces and explain how they were created.

SHERI FARBSTEIN graduated from Carnegie Mellon with a Fine Arts degree. She moved to Hilton Head in 1988 having presented 60 + shows including many corporate collections, private and public. She shows her work at May River Gallery and the Art League of HH and still maintains her ceramic business and adult classes and workshops.

ART121: DIGITAL PHOTOGRAPH RESTORATION

Tuesday, October 5 | 6-7:30PM | **In-Person, On-Demand** | Off-site *Bluffton*

Learn and observe firsthand all about digital photograph restoration. This is the practice of restoring the appearance of a digital copy of a physical photograph which has been damaged by natural, man-made, or environmental causes or simply affected by age and/or neglect.

STEPHEN BALL, owner of the Great Frame Up store, developed his framing, digital imaging and printing expertise through years of experience. He taught in corporate and academic environments including an MBA program. His corporate experience includes management, productivity, and sales training.

ART122: THE ART AND ARCHITECTURE OF THE TOP TEN CATHEDRALS

Wednesday, October 6, 13, 20, 27 | 4 sessions | 3:30-5:30PM | **In-Person, On-Demand** | Bluffton campus

Examine the top ten “cathedrals” in Europe and the USA including some of the challenges each cathedral faced and how it was resolved. Cathedrals will be reviewed factually, historically, religiously, and aesthetically including the architecture and artworks associated with each of them.

H. FREDERICK (FRED) REISZ, Ph.D. in Theology from the University of Chicago. As an adjunct, Reisz taught at Wittenberg University, Harvard Divinity School, and Yale Divinity School. He was President of the Lutheran Theological Southern Seminary in Columbia, SC.

ART123: THE ZENTANGLE METHOD OF DRAWING

Friday, October 29, 2021 | 1-2:30PM | **In-Person only** | Beaufort campus

“Yoga for the brain. Meditation on paper. Mesmerizing repetition of marks and patterns.” These are just a few of the ways Zentangles are described. The practice of Zentangles also proves that everyone can draw. Students will be instructed in the methods created by Maria Thomas and Rick Roberts and will create “Artist Trading Cards”, receive a Micron pen and use Zentangle tiles to create individualized designs which are beautiful and expressive. There is a \$3.00 (cash) materials fee collected day of course.

BARBARA KRAHEHL is a retired educator who has found time to explore and enjoy art. She finds pleasure in sharing some of the many opportunities for art appreciation and experiences available in the Beaufort community.

ART124: LETTING PICASSO SHOW A NEW WAY TO VIEW ART

Wednesday, November 3 | 1-3PM | **In-Person, Zoom, On-Demand** | Bluffton campus

The cubism avant-garde movement of the early 20th century challenged and questioned the significance of how material reality was understood and represented. Picasso's gift to art was his ability to depict different views of the subject simultaneously in a single painting. We hope you will take away an enlightened ability to interpret and understand the cubism art movement.

ECO124: OUR LOCAL DOLPHINS

Thursday, November 4 | 10-11:30AM | **In-Person, Zoom, On-Demand** | Beaufort campus

Students will learn the latest research on dolphins that make the Lowcountry their home. This presentation features the research that USCB's Marine Sensory and Neurobiology lab led by Dr. Eric Montie has learned. The USCB Marine lab has been using passive acoustics and visual surveys to determine baseline acoustic behavior, abundance, and distribution patterns in the May River estuary since 2013. Using photo-identification, the number of sightings of each dolphin per year is documented and can distinguish a resident from a migrant mammal. The research shared identifies when migrants arrive in our estuary and how these groups interact and use the estuary. Since dolphins are apex predators and serve as "canaries in the coal mine", USCB's research team monitoring is providing critical data about the ecology and health of the estuary.

ALYSSA MARIAN has been conducting research in USCB's Marine Sensory and Neurobiology lab since 2017. She is currently the lab manager helping with funded projects and overseeing USCB graduate and undergraduate students. Her research focuses on how acoustics can be used to understand animal behavior and distribution, which may help monitor the health of estuaries.

ECO125: SHRIMP TALES: SMALL BITES OF HISTORY

Tuesday, November 9 | 10-11AM | **In-Person, Zoom, On-Demand** | Hilton Head Island campus

“Shrimp Tales: Small Bites of History” captures the stories that swim in the salty souls of shrimpers who made their living fishing the waters of the Atlantic. Author and researcher Beverly Bowers Jennings spent a decade interviewing shrimpers and others associated with commercial shrimping to produce permanent exhibits for the Port Royal Sound Maritime Center and the Coastal Discovery Museum on Hilton Head. This work served as the start for “Shrimp Tales,” a book that shows the old ways of shrimping evolving to the modern-day. It reads not so much like a comprehensive history, but something tastier than that - a few good stories, some compelling insights, a collection of fascinating facts, some recipes, and illustrations of tools of the trade.

BEVERLY JENNINGS Master Naturalist classes led to creating exhibits for the Port Royal Sound Foundation Maritime Center. Her book, “Shrimp Tales: Small Bites of History” with 320 pages and over 800 photographs, is a natural extension of those exhibits and 10 years of research.

ECO126: ST. PHILLIPS ISLAND SAFARI

Thursday, November 11 | 9:30AM-4PM | **In-Person only** | Off-site *St. Helena Island*

Vendor Fee \$90

Nestled between expansive estuaries and the Atlantic Ocean, this incredible barrier island ripples with old growth maritime forest and a variety of wildlife like fox squirrels, alligators, and bald eagles. Purchased from media mogul Ted Turner in 2017, this incredible island is one of South Carolina’s newest State Parks, and a National Natural Landmark, and under easement with The Nature Conservancy.

About the trip:

From the Hunting Island Nature Center, you will take a tram down to the ferry where you will join your naturalist for a 45-minute interpretive boat ride through the vast estuaries between Hunting Island and St. Phillips Island. Once you arrive at St. Phillips you will board another tram that takes you on a safari-style ride through the interior of the park and gives you the opportunity to learn about the unique features of St. Phillips from your guide. From there you’ll have two hours of free time where you can either join the naturalist for an interpretive hike or explore the island on your own. There will be a tram service provided back to the dock where you’ll catch the boat to take you back to Hunting Island. Pack a lunch and be prepared for walking on uneven terrain, climbing steps into and out of the boat, as well as unpredictable weather. To maximize your experience on the island, we recommend you bring plenty of water and snacks, a raincoat, bug spray and sunscreen, good walking shoes, light layers with long sleeves and pants, binoculars, and a camera. A \$5 parking fee will be collected the day of the tour if you do not have a South Carolina State Park access tag.

GARDENING

GAR120: PALMS IN THE SOUTH

Friday, October 1 | 10-11:30AM | **In-Person, Zoom, On-Demand** | Bluffton campus

Palms are some of the oldest flowering plants on earth, and there are quite a few right at home in the Lowcountry landscapes. Clemson Extension Horticulture Agent Laura Lee Rose will give advice on selecting and growing palms.

LAURA LEE ROSE is the Horticulture Agent and County Office Coordinator for the Beaufort County Clemson Extension office. She teaches the Master Gardener classes and provides lawn and gardening advice throughout the county.

GAR121: GARDEN TOUR OF THE POINT

Thursday, October 14 | 1-2:30PM | **In-Person only** | Beaufort campus

Join Laura Lee Rose, Clemson Extension Horticulture Agent, for an exploration of Beaufort's oldest neighborhood plants and gardens. She will identify plants, landscaping and design techniques used in choosing the correct plant.

GAR122: BULBS FOR THE SOUTH

Friday, October 22 | 10AM-12N | **In-Person, Zoom, On-Demand** | Beaufort campus

Looking to add some color to your yard? Learn the varieties, characteristics, and care of bulbs that tolerate the stressful heat, humidity, and wildlife of the Lowcountry. The presentation will include photos, tips, a show-and-tell of examples, question and answer time, and door prizes.

SANDRA EDUCATE is an author, Master Gardener and Team Leader. She is on the boards of the Council of Garden Clubs and the Lowcountry Master Gardeners Association.

GAR123: PERENNIAL PLANTS: DREAM PLANTS FOR OUR TIME

Thursday, October 28 | 10:30AM-12N | **In-Person, Zoom, On-Demand** | Hilton Head Island campus

From Hokkaido to the Netherlands, from Britain to Chicago - perennials are becoming the dream plants for everyone's garden. Since they come up every year, they are sustainable. Most are pollinator magnets and many require low maintenance. Learn about the history of perennials, new ideas about perennial planting, and perennials that do well in our local area.

WENDY WILSON HILTY, B.A. in History at Wells College, Master of Letters in History at the University of Aberdeen, UK. Senior Lecturer in History at Northeastern University. Author of 11 history textbooks for high school and college students.

GAR124: THE FRAGRANT PATH

Friday, November 5 | 10AM-12N | **In-Person, Zoom, On-Demand** | Beaufort campus

What better reward for a gardener's hard work than to stroll, linger, inhale fragrant garden paths throughout their property? South Carolinians are so fortunate that fragrant gardens can be had year-round - from shrubs, trees, perennials, annuals, and of course herbs. Learn how to plant paths that will tug at the senses and conjure memories. With mindful planting, participants can be rewarded for years to come.

SANDRA EDUCATE is an author, Master Gardener and Team Leader. She is on the boards of the Council of Garden Clubs and the Lowcountry Master Gardeners Association.

GAR125: WEEDS OF THE LOWCOUNTRY

Monday, November 8 | 1-3PM | **In-Person only** | Hilton Head Island campus

Although typically dismissed as unwanted plants growing in the wrong place, weeds have value. Ecologically, they're important as pioneer species, colonizing habitats where other plants can't grow. Many also have long cultural, culinary, and medical histories. This presentation will introduce students to some common weeds of the Lowcountry, their striking adaptations to inhospitable environments, and their hidden beauty.

GOV101: THE UNITED STATES AIR TRAFFIC CONTROL SYSTEM

Tuesday/Thursday, November 16, 18 | 2 sessions | 10AM-12N | **In-Person, Zoom, On-Demand** | Hilton Head Island campus

This course examines the National Airspace System (NAS), the air traffic control system (ATC), and how the FAA strives to meet the needs of its expanding stakeholders. The term "stakeholders" refers to every entity that operates in the National Airspace System - foreign and domestic commercial air carriers, box haulers (Fedex), corporate aviation, general aviation (privately owned), the military, glider operations, skydivers, and as of the past few years - drones. This class will discuss the methods used to move the nation's air commerce in a safe, orderly, and expeditious manner, along with why flights get delayed and the tools used to mitigate those delays.

PETER PASQUALE spent 33 years in the FAA as an air traffic controller, supervisor and manager. Post retirement he was an instructor for the University of Oklahoma teaching air traffic control at the FAA Academy in Oklahoma City. Peter also worked for a Washington DC company as a program manager and subject matter expert in support of the FAA effort to upgrade the nation's air traffic control system. He has 2000+ hours as a corporate pilot and flight instructor.

HISTORY

HIS120: HOW CONTEMPORARY AMERICAN ANTI-ASIAN ATTITUDES ORIGINATED IN 11TH CENTURY EUROPE

Thursday, September 23 | 10-11:30AM | **Zoom, On-Demand**

European racism originated in the 11th century, sailed with British colonists to the shores of North America, and was incorporated in the culture of a new nation, the United States of America. Images from the 11th to the 21st century will illustrate how racism has been transformed into the large landscape of discrimination shared by a significant portion of all Americans.

HIS126: POSTWAR PERIODS IN AMERICAN HISTORY: CHANGE, CONTINUITY, ADJUSTMENT

Wednesday, October 13, 20, 27, November 3, 10 | 5 sessions | 10-11:45AM | **In-Person, Zoom, On-Demand** | Beaufort campus

In the history of the United States, major wars have produced intended and unintended consequences. Wars do not allow for extended discussion and debate. Wars centralize decision-making. Wars accelerate social, economic, cultural, and political change. Some decisions and some changes persist long after war ends; others become the object of challenge and adjustment. This course will consider four wars and focus on four postwar periods - the years following the Civil War, World Wars I and II, and the Vietnam War - to identify recurrent themes and, where possible, to draw lessons. This is not a course in military history. Rather, it is a study of the impact of war on American society. Students conclude with a consideration of our most recent "war-like" experience, the COVID pandemic, and inquire whether we might now, or soon, be living through another period of postwar adjustment.

MUSIC BY WOMEN COMPOSERS FROM THE 9TH TO THE 21ST CENTURIES

"Women wrote music, they wrote it well, and they wrote it against the odds". - *Anna Beer* For centuries, genius has been thought of as a male preserve; women have been denied access to education in composition, to professional positions within the field of music, and to opportunities for their compositions to be heard by audiences. They have shown great courage in continuing to compose music in spite of these handicaps. This class will give an introduction to the wide range of first-rate music written by women composers, beginning with Kassia in the 9th Century and continuing through to the 21st Century, and a discussion of women composers in Classical, Musical Theater, Jazz, Folk, and Popular traditions. Much of this music will be unfamiliar and is rarely performed, but it deserves to be much better known. The class will include

PGD121: IT IS NOT YOUR RACE, COLOR, GENDER - IT IS YOUR CULTURE, CUSTOMS AND CHARACTER

Friday, October 22, 29 | 2 sessions | 1-3PM | **In-Person, Zoom, On-Demand** | Bluffton campus

Humans are social animals. As primates, we are taught how to accept or reject those we encounter. Often such decisions are below the level of self-awareness and knowledge that our screening mechanisms have been subtly or even intentionally imbued in our psyche. This course shares learnings, career and social experiences where subconsciously held paradigms did not hold true. Perceptions were overturned and assumptions repudiated. Those moments of epiphany overturn and expand value systems and behavioral codes to open vast new opportunities leading to unforeseen personal and career growth.

RELIGION

REL101: THE ONLY PRAYER YOU WILL EVER NEED

Monday, September 20, 27 | 2 sessions | 10-11:30AM | **In-Person, Zoom, On-Demand** | Bluffton campus

Many people are familiar with the Lord's Prayer, but typically recite it and miss its extraordinary hidden treasure. This teaching prayer invites us into seven meaningful conversations with God as well as with others. Following the seven petitions of prayer, these conversations are about perspective, hope, trust, life, forgiveness and generosity, self-awareness, and gratitude. They invite us to live with aspirations to grow as human beings, deepen relationships, reach across divisions, and understand our profound connection to others. This course will deal with the prayer as conversations with God and the most valuable conversations we can have with others.

REL102: GOD AND CAESAR - THE FOREVER VEXING ISSUE OF "CHURCH" AND "STATE"

Monday, October 18, 25 | 2 sessions | 1-3PM | **In-Person, Zoom, On-Demand** | Bluffton campus

Since the days of the Roman Empire, western society has wrestled with the question of how to reconcile the oft-times conflicting allegiance one must observe toward political leaders on the one hand and the teachings of religion on the other. This course will explore the matter of "church and state" from a variety of historical and contemporary perspectives with an effort to see how commonly-held views on this matter have evolved over the years. Among the authors we will examine will be John Locke, Thomas Jefferson, Dietrich Bonhoeffer, John Courtney Murray, and several lesser-known figures.

BRIAN CUDAHY, born and bred in Brooklyn, holds a Ph.D. in philosophy and teaches undergraduate courses at USCB. He has published widely on topics as diverse as the New York subways and religious history. His latest book, "From Blackmoor Lane to Capitol Hill," analyzes the philosophy of the first Roman Catholic bishop of Charleston, John England.

REL103: THE MYSTERIES OF KABBALAH

Wednesday, October 20 | 1-3PM | **In-Person, Zoom, On-Demand** | Bluffton campus

You've heard the word "Kabbalah" mentioned in hushed tones many a time. You realize it is filled with thousands of years of Jewish thought and practices. Now join Rabbi Robert Haas, as we unlock the mysteries of the ancient tradition of Jewish mysticism. Where does this discipline originate? Who created it and who practices it today? Why is it so shrouded in mystery? Will Rabbi Haas find himself in trouble with the authorities for sharing a deeper understanding of its ancient meanings? Join our class and study the profound messages of this wonderful theology.

RABBI ROBERT HAAS, a native of McAllen TX, became the 14th spiritual leader of Congregation Mickve Israel in Savannah, Georgia in 2012. He is a sought-after comedian, lecturer, preacher, and interfaith leader who regularly speaks and performs for organizations, radio shows, colleges, theaters, houses of worships, and institutions.

SCIENCE

SCI120: THE CLEAN AIR ACT AMENDMENTS: TOUCHSTONE LEGISLATION

Monday, September 27 | 1-3PM | **In-Person, On-Demand** | Bluffton campus

The Clean Air Act was one of the most significant pieces of legislation in US history. Last amended in 1990, it became landmark literally cleaning up the nation's air in a remedial effort applied to every major industry. It cleaned up acid rain, particulate pollution, and mercury. It largely cleaned up urban smog, vehicular emissions, and significantly shrunk the cancer-causing ozone hole. This class will trace CAA history and provide some anecdotes, insights and solutions, which could serve as a template for the US response to climate change.

VINCE ALBANESE has 40 years' experience in the business of energy efficiency and air pollution control, serving as President of The Institute of Clean Air Companies, the national trade association dealing with energy production, and monitoring and control of air pollution.

SCI121: THE FUTURE OF ELECTRICITY GENERATION AND ENERGY PRODUCTION IN A REDUCED CARBON WORLD

Tuesday, October 12 | 10AM-12N | **In-Person, On-Demand** | Hilton Head Island campus

The energy path forward has numerous possible twists and turns. South Carolina currently obtains over 50% of its reasonable cost electricity from four nuclear power plants in the state. The operating licenses for three of these 1970s vintage plants may be extended beyond 2050, but they cannot last forever. About 1/3 of SC electricity is used by Industry. Intermittent, non-dispatchable, renewable power creates a challenge to manufacturing competitiveness, especially with China. Most large auto manufacturers have announced plans to discontinue manufacturing gasoline-powered vehicles by 2035 and change production to electric vehicles (EV). Solar electricity requires enormous plots of land and only functions during the day. Hydrogen is a clean fuel that can technically provide storage of energy for electric generation when solar is unavailable and replaces gasoline for transportation vehicles with no carbon emissions. This course provides students an overview of several of the challenging paths forward to EV's, hydrogen and energy storage.

DICK STORM, registered professional engineer and Williamson graduate, worked in electrical power generation for five decades and is founder of Storm Technologies, Inc. His specialty was large electric utility plants fueled by coal. He was involved in large combustion processes around the world with power generation facilities and also mining power for primary metals production. Employed over the years with Babcock & Wilcox, Flame Refractories, Carolina Power & Light, Mobil Oil, Standard Pressed Steel & Inductotherm.

SCI122: NASA: CURRENT MISSIONS AND FUTURE HORIZONS

Thursday, October 14 | 10AM-12N | **In-Person, On-Demand** | Bluffton campus

This presentation describes NASA's current research, development, and mission activities in aeronautics, earth science, manned exploration, and unmanned space exploration (robotic probes, rovers, orbiting telescopes). Each of these primary areas of NASA's focus will be explored with activities of both near-term and in the future.

Finally, the overriding question of whether NASA will choose to emphasize robotic or human exploration in the future will be discussed.

JACK HANSEN, PhD, spent most of his career helping lead research organizations in the federal government (e.g., NASA) and universities (e.g., Penn State Applied Research Laboratory). Since retiring, he has written two books on the personal dimensions of retirement and worked with the OLLI National Resource Center on surveys of OLLI participants. He is also active in the OLLI at Furman University.

SCI123: ARTIFICIAL INTELLIGENCE

Friday, October 15 | 10AM-12N | **In-Person, On-Demand** | Bluffton campus

This course provides an overview of the history of Artificial Intelligence (A.I.), the methods employed to simulate intelligence by computer, some of the key accomplishments to date, and policy issues associated with the continued development of this field. Examples of the successful implementation of A.I. which will be described are playing such complex games as chess, controlling a remote spacecraft, scheduling the tasks of Mars exploration rovers, and autopilot capabilities for “self-driving” cars.

SPORTS

SPO100: HAZZARD CREEK KAYAK TRIP

Thursday, September 23 | 10:30AM-1PM | **In-Person only** | Off-site *Bluffton*

Vendor Fee \$45

Join Beaufort Kayak Tours as they lead participants on an approximate four-mile round-trip beginners kayaking excursion on Hazzard Creek. This paddle is suitable for beginner paddlers. Paddlers will pass the Bolan Hall Plantation that was completed in the 1980s and will see the rice culture of Beaufort County days gone by. When the tide turns, the river will take participants back to the starting point. Beaufort Kayak Tours will supply the instructors, kayaks, paddles, and PFD's. Single and tandem kayaks will be assigned by Beaufort Kayak Tours at the time of launch. Every effort will be made to accommodate your kayak request.

JIM and TERI POHORSKY have explored the Lowcountry in kayaks for over 25 years. Jim enjoys sharing the history and ecology of the area. Teri is a retired teacher with a Master's Degree as a Reading Specialist. Both are graduates of Iowa State University and spent many years paddling our local waterways as well as sponsoring kayak, bike, and hike trips in the Everglades.

SPO101: FORT FREDERICK KAYAK TOUR

Wednesday, October 27 | 1-3:30PM | **In-Person only** | Off-site *Beaufort*

Vendor Fee \$45

Join Beaufort Kayak Tours on a 3-mile, tidal trip appropriate for beginners or experienced kayakers. Participants will ride the tidal current to the fort where participants will land and learn about the history of the fort, tabby construction techniques, and the Emancipation Oaks. Paddlers will return on the falling tide to the departure point. Beaufort Kayak Tours will supply the instructors, kayaks, paddles, and PFD's. Single and tandem kayaks will be assigned by Beaufort Kayak Tours at the time of launch. Every effort will be made to accommodate your kayak request.

TRAVEL

TRA120: HIDDEN GEMS OF AMERICA'S NATIONAL PARK SYSTEM

Monday/Wednesday, September 27, 29 | 2 sessions | 3:30-5:30PM | **Zoom, On-Demand**

This class will explore our national park system's stunning hidden gems, places largely unfamiliar to the public, and all but serious park enthusiasts and rangers. Fifty-one National Park Service locations including sites from across the continent and into the Pacific and Caribbean will be covered, exploring lesser-known but spectacular natural and historical parks that remain some of our National Park Service's best-kept secrets.

DAVID KROESE is one of about fifty people known to have visited all 400+ National Park Service units in December 2017. David has spent thousands of hours exploring our park system, logging over 1,500 NPS site visits. David shares his enthusiasm for our park system in speaking engagements across the country, lectures on park-related themes in programs at over a dozen colleges and universities, and is currently working on his next book, "Hidden Gems of America's National Park System".

TRA121: AFRICAN TRAVELS: KENYA & TANZANIA

Thursday, October 7 | 1-3PM | **In-Person, Zoom, On-Demand** | Beaufort campus

This class explores a 17-day safari experience on the amazing continent of Africa. Students will gain practical knowledge about two different countries, Kenya and Tanzania. We will explore the animals, cultures, and uniqueness of each of these amazing African countries. Presenters share photos and stories from each region. *Warning - this course could result in altered vacation plans to include Africa and a guided safari.*

TIPPY AMICK, Ph.D., from Florida State University with a major in Human Services and Studies. She has been on the faculty of FSU for over 20 years teaching leadership courses. She moved to Hilton Head and opened a business offering workshops on topics including communication courses.

DONNA MORRIS is a retired teacher with experience in overseas work and travel. Donna, a native of North Carolina, graduated from UNC-Greensboro with a Masters Degree in Education. Her teaching career spanned 30 years, including 14 years teaching abroad.

WRITING

WRI100: GRAB A PEN AND LET'S WRITE!

Tuesday, October 12, 19 | 2 sessions | 1-3PM | **In-Person only** | Beaufort campus

This class is for everyone who wants to write. Whether you're a rusty writer returning to your craft; a novelist, freelance writer or poet seeking inspiration; or someone looking to write those stories that have been entertaining your family and friends for years, Let's Write is your opportunity to get inspired and start filling those blank pages. Using a method of writing practice developed by Natalie Goldberg, author of "Writing Down the Bones: Freeing the Writer Within", students use timed writing to create chunks of memoir, fiction, nonfiction, and/or poetry to take home and complete.

KATHERINE TANDY BROWN has traveled the world as a freelance writer for 30-years. A workshop leader and writing coach, she is penning her first novel, *One to Go: An Equine Thriller* and a memoir, *Anne, Queen of the Wingchair*.

OLLI CODE OF CONDUCT

OLLI seeks to meet the needs of an engaged learning community and maximize the learning experience for all members. We promote a positive, educational culture. Please respect the rights of instructors and members through active listening and thoughtful discussion, especially if you are not in agreement with others' opinions. Monopolizing discussions, undermining the instructor's credibility, and being disrespectful in words or actions will not be tolerated.

IN-PERSON COURSES

- Raise your hand when you have a question or comment. Blurting out comments or questions can disrupt the class and instructor's presentation.
- Show up for the courses you are registered for.
- Contact an OLLI office if you are unable to attend a course that you have registered for.
- Please sign in for all OLLI courses you attend.
- Please turn all electronic devices off or place them in vibrate mode when in the classroom.

ZOOM ETIQUETTE

- Keep your microphone muted throughout the course. Microphones can pick up noises that may disrupt the presentation.
- Use the chat feature to submit questions and comments during the presentation. OLLI staff will moderate questions and comments when the instructor is ready.
- Please be considerate of your surroundings if your camera is on during the presentation.

ON-DEMAND

- Please do not share your custom link and password from the OLLI On-Demand library.

Failure to follow the OLLI code of conduct can result in the revocation of On-Demand privileges, removal from online courses, and/or removal from the OLLI program. Sharing Zoom links and On-Demand access is strictly prohibited.

"Being new to the area, I was very excited to find out about OLLI and all the different courses that they have about the Lowcountry. What better way to learn about my new "home" than to hear from longtime residents and experts? Being in-person gives me a chance to meet my new neighbors and feel apart of a community."

"I became an OLLI member when I was still working. I was impressed with the variety offered but could attend only a few classes. I'm excited about OLLI's new flexible format with choices galore - in-person or zoom or on-demand. I never have to miss a class again!"

~ Carol Hartman, OLLI Member since 2016

OLLI Live on Zoom Course Summary

When taking an OLLI course through Zoom, it is different than physically sitting in the classroom. Example: you may not always see the instructor if they walk outside of the camera's view. OLLI offers tech support for members who want to get the most out of their Zoom experience.

"Although I enjoy all of the ways to take OLLI classes, the Zoom classes give me more flexibility. If my schedule is tight, the drive is too long that day, or I just want to enjoy my second mug of coffee, I have the option to stay home and still participate in OLLI. I can take OLLI with me when I travel, something I was not able to do a few years ago and don't think I can live without now.
